Six-Game Chess Progress Sheet

Compare three starting games with three later games. Use similar time controls. Review one or two decisions per game, and record what your child noticed at the board before giving hints.

Player: _____ Date range: _____

One habit we're practicing: _____

Game	Date, time control and opponent rating (if known)	Free piece losses count + key move	Clock at a difficult move + decision	Opponent's reply move + when noticed
1 Start				
2 Start				
3 Start				
4 Later				
5 Later				
6 Later				

Reply key: S = saw it during the game; R = found it in review; ? = unsure. Use N/A when there was no useful example. Leave unknown clock times blank.

What improved or stayed the same? Which moves show it?

What might make these groups hard to compare?

One practice task for the next few games:
